EMPLOYMENT PROCEDURE ESTABLISHED

There will be no further need for Tanforan residents to apply in person for jobs, Wm. N. Gunder, head of the Employment Office, said this week.

All employable camp residents between 16 and 60 have been classified from their induction records according to USES ratings. Those whose cards contain inadequate data will be called in for additional interviews, it was stated.

Hereafter, all workers will be requisitioned by the various departments and assigned to jobs according to their skills, abilities and experience, Gunder said, and work appointees will be notified by messenger.

The Employment Office will be open to complaints and readjustments on job assignments.

George A. Greene, director of the Center Service departments, stated that this policy of employment has been adopted in order to give all qualified persons equal consideration for work as openings occur.

Some 1300 work orders have already been issued by the Employment Office, it was revealed.
